### Job Summary:

SV Design is looking for a personable, motivated, and organized individual to join our Beverly residential team. As an architectural designer, you will be working primarily on mid to large-sized high-end residential projects. You will be the draftsman for your projects and responsible for quality, coordination (in-house and externally), and schedule.

### Qualifications:

- This is an in-office position at our Beverly, MA location. Any interested candidate must be within reasonable commuting distance of this location.
- A professional degree from a U.S. accredited architecture program or equivalent
- 1-5 years of professional architecture experience with a focus on residential projects
- Ability to communicate ideas in sketch form
- Strong organizational, oral, and written communication skills
- Proficiency in AutoCAD, Adobe Photoshop, and Microsoft Office are required
- Collaborative, team mentality, and open to listening to and considering the views of others
- Clear communicator with a proactive mindset
- Ability to take direction from senior staff
- Detail-oriented with regards to the quality of work, review of other's work, and field conditions
- Excellent time management skills and the experience to be efficiently productive.
- Must take pride in producing high-quality work and be motivated to do your best

### Responsibilities:

- Ensure SV Design's project standards, professionalism, and creativity are conducted for all work.
- Draft and review existing conditions including measurement and documentation of buildings
- Hand drafting and computer rendering during schematic design
- Produce design development drawings
- Collaborate with project managers to create the best design solutions
- Prepare and support project managers in design presentation meetings
- Follow projects through the design development and construction document phases
- Demonstrate understanding of construction materials and work with manufacturer reps as needed
- Review construction documentation for accuracy and completeness, including construction sets and shop drawings
